Refurbished old Sun Stove, 1904, 1906? Not sure of exact date but reads: 1904, #171/1705, also: SUN 19-17, 1906

Potbelly Stove, it has new parts, as well as original antique parts, clean and does work, for coal or wood-

we bought the pipes separately at Yoder Hardware (single insulated pipes, one we bent at the top to fit, see photos) but never completed the stove set-up so now we are selling it all together-

clean grill- great item for cold weather or emergency or cooking!

16" diameter (opening), 36" tall
